Objective

I am a junior in computer science seeking a summer internship at an industry-leading firm where I can contribute with my excellent technical and collaborative skills.

Education

Bachelor of Science - Computer Science

North Carolina State University - Raleigh, North Carolina

4.0 GPA

May 2023

Key Skills

- Strong familiarity working with SCRUM in Agile environments, ranging from determining user requirements and engineering needs to writing user stories and implementing solutions
- Capable of communicating complex ideas and concepts to a wide variety of audiences through both written media and verbal presentations
- Ability to find solutions to complex problems effectively as both a team member and self-directed individual

Technical Skills

- | | | |
|----------|---------------------|----------------------|
| ● Python | ● MacOS | ● Kubernetes |
| ● Java | ● XCode | ● Linux |
| ● C/C++ | ● Git/Github/Gitlab | ● Remote Development |
| ● Bash | ● Docker | ● GitlabCI/Jenkins |

Experience

Cloud Native Engineering Co-op

June 2020 - Present

Oracle | Morrisville, North Carolina

- Migrated several projects to use Oracle Cloud Infrastructure Repository for storing ready-to-deploy Docker images, resulting in savings of \$3,000/year in licensing costs.
- Implemented new features and improved testing suite for a RESTful service that coordinates vulnerability checking, credential retrieval, and cloud deployments for both internal and external use.
- Designed and implemented solution for detecting database outage and switching to a backup database, syncing the two when service is restored.
- Coordinated with teams across multiple timezones to implement a new vulnerability detection system to our workflows, and streamlined its workflow to more efficiently utilize our Kubernetes cluster and cloud resources.

Food Runner

December 2017 - July 2019

La Farm Bakery | Cary, North Carolina

- Performed excellent customer service with a team of skilled individuals across language boundaries.

Sales Associate

June 2016 - December 2017

Food Lion, Cary | North Carolina

- Gained valuable experience working on a large team across multiple store departments.
